

## Suggestions for using Merlin Cards:

- ★ Ask for a message on a specific subject, shuffle the cards, pull out a card and look at it. See what message the card conveys in the context of the subject.
- ★ Choose a subject. Pull out two cards. The first represents lessons that we have already learned about the subject and the second represents lessons that are in store for us.
- ★ Choose a subject. Pull out two cards. The first card represents the main message and the second represents messages that support the process.
- ★ Find your own magic way to use the cards, however you please.

*Good Luck*
